

West Hempfield Township Residents

This is your new All In One Recycling cart which replaces your small recycling bin. Please start using this cart immediately for your recycling. If you'd like to keep your old bin for use in your house or garage, you may, or if you'd like us to dispose of it, please put it in your trash cart and it will be disposed of at your next pickup. Moving forward, recycling collection will occur with this new cart you've just received. This cart gives you more space for the increased recycling volumes we've been collecting. It also helps keep a uniform look in your community as well as helping to keep your community cleaner compared to small bins that tend to blow over and spill the recyclables, creating messes in your neighborhoods and streets.

When placing your trash and recycling carts out for pickup, please insure that the carts are at least 3 feet apart and are also at least 3 feet from any stationary objects like mail boxes, walls, vehicles or trees. The carts should also be placed with the handles facing toward your house so that the side that opens is facing the road.

Because we will be servicing carts with automated trucks and need to have room for the claw to grab the carts to dump them, it's important that you keep this 3 feet of space around the carts.

For what can and can't be recycled, please refer to the West Hempfield Township website.
